NATIONAL RANK : 117, COLLEGE RANK : 5, and ALL INDIA RANK : 7.

Work Experience

WEB DEVELOPER INTERN
ABES Engineering College
📅 Sep 2020 – Mar 2021   📍 Ghaziabad, UP

- In this internship, I designed the dynamic website(**NotesSharingSite**) using **DJANGO** for handling backend part of website for internal usage.
- I work under this project in which my task is to customize the user's requirement to accept the notes and visible to some sections only.
- Technology Stack used: HTML,CSS, JAVASCRIPT and DJANGO Framework

Projects

ONLINE ORDERING USING DJANGO
- It's an online food delivery website where a person can order its favourite dishes and even see its previous orders. Fully Backend customized.
- Can pay too and see the history of buying the food items. And also QR attached within to ease the payment.
- **Technology Stack Used : HTML,CSS,Javascript Bootstrap, and Django**
- **View Live Working Project**
- **View OnlineOrdering SourceCode**

E-PORTFOLIO WEBSITE
- It's a Portfolio Website, which includes a summary of qualifications and skills, resume, process flow and more; kind of online representation of work.
- A portfolio resume is a specialized type of creative resume
- Technology Stack Used : **HTML CSS JAVASCRIPT REACTJS**
- **View Portfolio Project**

SMS SPAM DETECTION
- Detection of spam is important for securing message and e-mail communication. The accurate detection of spam is a big issue, and many detection methods have been proposed by various researchers.
- To solve this issue, we have proposed a method for spam detection using machine learning predictive models. The method is applied for the purpose of detection of spam.
- **Technology Stack Used : Python and ML models**
- **View Sms Spam Detection Project**

DASH DODGE GAME
- Its an online game for the children who loves to play dodging game, it uses the unity hub for development with the help of C sharp langauge. Unity hub
- Technology Stack Used : **C sharp and Unity Hub**
- **View Game**

Certifications
- Programming Essential in python - Netacad(CISCO)
- HTML, CSS and JavaScript for web developers - Coursera
- SQL(Basic) - HackerRank
- ReactJs - Udemy
- Introduction to Cyber Security - Netacad(CISCO)
